

## Overall Conference Agenda

DATE	TIME	TITLE	DESCRIPTION
Tuesday, July 23	4:40pm - 6:00pm	Welcome Desk and On-site Registration open	--
Wednesday, July 24	7:00am	Welcome Desk and On-Site Registration Open	--
Wednesday, July 24	9:00am - 9:45am	Understand Your Retirement Benefits with RSA	--
Wednesday, July 24	9:00am - 9:45am	Evaluating Student Performance in CTE	--
Wednesday, July 24	9:00am - 9:45am	Mental Health Begins with ME!	--
Wednesday, July 24	9:00am - 9:45am	Skills for Success	--
Wednesday, July 24	9:00am - 9:45am	Introduction to CTSO	Initiate your CTSO chapter at your school! Whether you are starting fresh or you are trying to reactivate a CTSO chapter at your school, learn some core steps to help you start building momentum for your chapter! There are many directions you could go, but learn from experience the things to do (and not to do) first so you can start helping students take advantage of the opportunities in store.
Wednesday, July 24	9:00am - 9:45am	The 100X Chapter	Help is here! If you are ready to take your chapter to the next level, this is the place for you. Become the best advisor you can be, and learn to multiply that leadership into your chapter. Come get a tour of the new virtual portal that is the go-to source for advisor assistance, known as Teach CTSO! Walk away with new tools, and relief knowing you are not alone!
Wednesday, July 24	9:00am - 9:45am	Artificial Intelligence: A Practical Approach	--
Wednesday, July 24	9:00am - 9:45am	Powerschool Updates for CTE	--
Wednesday, July 24	9:00am - 9:45am	Teacher Certification Bachelor's I & II	--
Wednesday, July 24	9:45am - 10:30am	TAPE 101	--
Wednesday, July 24	10:00am - 10:45am	Michael Connet	--
Wednesday, July 24	10:00am - 10:45am	Meaningful Mentorship Development	--
Wednesday, July 24	10:00am - 10:45am	Mastering the Arts of CTE Grant Writing: Strategies for Success	--
Wednesday, July 24	10:00am - 10:45am	How can ACCESS support CTE?	--
Wednesday, July 24	10:00am - 10:45am	Launching a Chapter Officer Team	Learn key strategies to help form, train, and lead a high performing chapter officer team. From the selection process, training, setting goals, to succession, CTSO advisors will leave this session feeling equipped to elevate their chapter leaders and members.
Wednesday, July 24	10:00am - 10:45am	Effective Chapter Officer Meetings	From chapter officer meetings to all member meetings; from planning meetings to fun activities, learn how to not only master meeting management, but how to empower your officers to lead the meetings themselves. Gain insights into effective delegation, discover strategies to keep members engaged, and ensure every meeting runs smoothly and achieves it's goals.
Wednesday, July 24	10:00am - 10:45am	Artificial Intelligence: A Practical Approach	--
Wednesday, July 24	10:00am - 10:45am	Powerschool Updates for CTE	--
Wednesday, July 24	10:00am - 10:45am	Teacher Certification Masters +	--
Wednesday, July 24	11:00am - 1:00pm	Lunch	--
Wednesday, July 24	11:00am - 1:00pm	Exhibitor Time	--
Wednesday, July 24	11:00am - 1:00pm	Powerschool Learning Lab	--
Wednesday, July 24	1:00pm - 3:00pm	Opening Session	--
Wednesday, July 24	1:00pm - 4:00pm	Educator Certification Help Desk	--
Thursday, July 25	8:00am - 12:00pm	Educator Certification Help Desk	--
Thursday, July 25	11:00am - 1:00pm	Lunch	--
Thursday, July 25	11:00am - 1:00pm	Exhibitor Time	--
Thursday, July 25	1:00pm - 4:00pm	Educator Certification Help Desk	--
Friday, July 26	8:00am - 10:00am	Educator Certification Help Desk	--

## Overall Conference Agenda

Friday, July 26	8:00am - 12:00pm	School Bus Recertification	--
Friday, July 26	8:00am - 8:45am	Introduction to CTSO	Initiate your CTSO chapter at your school! Whether you are starting fresh or you are trying to reactivate a CTSO chapter at your school, learn some core steps to help you start building momentum for your chapter! There are many directions you could go, but learn from experience the things to do (and not to do) first so you can start helping students take advantage of the opportunities in store.

Come discover how the best chapters take flight to organize and strategize a year of great opportunities for your members!
Friday, July 26	8:30am - 10:00am	Inegration of Science into the CTE Curriculum while Improving Academic Benchmarks	--
Friday, July 26	8:30am - 10:00am	Child Labor Law	--
Friday, July 26	8:30am - 9:45am	SREB	--
Friday, July 26	9:00am - 10:30am	Anchor Assignments and Integrating Core Content	--
Friday, July 26	9:00am - 9:45am	Creating Classroom Culture: Awesome Ways to Kick-Off the Frist Week of School	The first week of school is quickly approaching! How will you set the tone for the year and foster connections with your members? Get fresh ideas that will make your classroom a collaborative and fun space for learning and growth within your CTSO!
Friday, July 26	9:00am - 9:45am	Pro Tools for Pro Teachers	Get ready to fill your toolbox with the best tools available in order to become the most amazing CTSO advisor! Discover top-notch strategies and resources that will elevate your game. Become a pro with the ultimate advisor toolkit!
Friday, July 26	9:00am - 9:45am	NBCT	--
Friday, July 26	10:15am - 11:30am	The State of CTE in Alabama	Closing Session

## Agriculture, Food, & Natural Resources Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	4:00pm - 5:00pm	Alabama DoE Staff Panel	Agriscience State Staff Welcome And Update	In this session, you will hear a brief message from the Alabama Agriscience State Staff that will discuss the conference agenda along with AFNR and FFA updates. There will also be short presentations by our Agriscience and FFA supporters like Chip Blalock from the Sunbelt Ag Expo, FFA Alumni, etc. During these sessions new agriscience teachers will be recognized and welcomed into the profession. You don't want to miss this AFNR opening Session.
Thursday, July 25	8:00am - 8:45am	Amanda Teixeira	Pathway Extravaganza	In this workshop, you'll be able to explore different National FFA Educator Resources that are specific to the content areas that you teach. Whether you teach animal science, plant science, mechanics, or a combination of any and all - you'll leave this workshop feeling more prepared for the school year ahead of you.
Thursday, July 25	8:00am - 8:45am	Ivy Harbin	Making Agricultural Magical	How are we able to find agricultural education within "The Most Magical Place on Earth"? Join us this session to learn what agricultural experiences are available at Disney World, and the logistics of how to give your students an immersive experience they will not forget!
Thursday, July 25	8:00am - 8:45am	State Staff	Lde And Tde Contest Booklet Updates	During this workshop teachers who are passionate about the following events: Conduct of Chapter, Creed Speaking, Discussion Meet, Employability Skills, Extemporaneous Speaking, Parliamentary Procedures, Quartet and String Band will have the opportunity to work together in groups to make suggested changes and updates to contest booklets and test banks.
Thursday, July 25	9:00am - 9:45am	Amanda Teixeira	Pathway Extravaganza	In this workshop, you'll be able to explore different National FFA Educator Resources that are specific to the content areas that you teach. Whether you teach animal science, plant science, mechanics, or a combination of any and all - you'll leave this workshop feeling more prepared for the school year ahead of you.
Thursday, July 25	9:00am - 9:45am	Ivy Harbin	Making Agricultural Education Magical	How are we able to find agricultural education within "The Most Magical Place on Earth"? Join us this session to learn what agricultural experiences are available at Disney World, and the logistics of how to give your students an immersive experience they will not forget!
Thursday, July 25	9:00am - 9:45am	State Staff	Summer Contract Q&A Session	In this workshop Mr. Ken Sealy will be leading a conversation to get feedback, ideas and thoughts concerning the summer contract process.
Thursday, July 25	10:00am - 10:45am	Amy Murphy	Connecting The Act Science Test To Career Technical Education"	Participants will examine the importance of the ACT Science Test and review recent data, investigate the structure of the ACT Science Test and complete a practice passage, and connect the ACT Science Reporting Category Skills to the CTE classroom
Thursday, July 25	10:00am - 10:45am	Brittany Hill and Andrew Brock, Leigh Outlaw, Amy Stephens, Bill Enfinger and Joe Dennis	New Teacher Panel Of Experts	If you are a teacher in your first few years, come sit in on this informative panel of veteran teachers. This session will consist of a four-person panel of teachers that have been successful in the agriscience classroom and FFA. This panel will be asked intentional questions to open conversation on a variety of classroom tips that are invaluable in today's agriscience classroom. Come learn from teachers who have figured out how to be successful in their agriscience program and how they balance work and life. They will also give advice on how to utilize and incorporate your community into your agriscience program. The workshop will give participants ideas on the importance of community involvement and how it has worked in their programs along with a variety of other topics. Teachers presenting include: Brittany Hill, Andrew Brock, Leigh Outlaw, Amy Stephens, Bill Enfinger and Joe Dennis
Thursday, July 25	10:00am - 10:45am	Madelene Loftin	Roots Of Innovation: Agri-Biotech Stories To Inspire	Let's talk about Short Corn, Future-proofing Wheat, More Nutritious Tomatoes, and Bonus Bulls! HudsonAlpha's annual Guidebook provides Ag teachers with updates about new discoveries and applications of biotechnology in agriculture. Here are some of our favorite stories from the last few years.
Thursday, July 25	1:00pm - 1:45pm	Jill Wagner	National FFA Updates From The Southern Region State Specialist	Learn information FFA advisors need to know ahead of the 2024-25 school year including changes to national awards and recognition programs, new opportunities in grant programs, and ideas for student involvement in national programs starting at the local level. Advisors will have the opportunity ask questions and identify needs with National FFA staff.

## Agriculture, Food, & Natural Resources Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Thursday, July 25	1:00pm - 1:45pm	Josie Jones, Madelene Loftin, Reid McGuire and Matt Heaton	Agriscience Workforce Development Panel	Do you want to prepare your students for the new trends in the agriculture workforce? We are sure you do, so come and interact with this lively panel of agriculture industry representatives as they discuss what the ag workforce is demanding from employees. This session will consist of a four-person panel of agriculture industry professionals that are seeking workers in today's agriculture industry. This panel will be asked intentional questions to open conversation on a variety of skills needed in the ag workforce. The panel will outline the current situation in today's agriculture workforce in Alabama. Through this session teachers will be able learn how to better prepare students to join the modern agriculture workforce while simultaneously promoting the agriculture industry in the classroom to our future agriculture workers.
Thursday, July 25	1:00pm - 1:45pm	Allison Heald	Which SAE Is The Uno For You?	This work session will specifically focus on the SAE Idea Cards resource from National FFA and how the resource can be implemented within the classroom to assist both traditional and nontraditional AgEd students in selecting an SAE that best suits their individual interests and resources.
Thursday, July 25	2:00pm - 2:45pm	Jill Wagner	National FFA Updates From The Southern Region State Specialist	Learn information FFA advisors need to know ahead of the 2024-25 school year including changes to national awards and recognition programs, new opportunities in grant programs, and ideas for student involvement in national programs starting at the local level. Advisors will have the opportunity ask questions and identify needs with National FFA staff.
Thursday, July 25	2:00pm - 2:45pm	Josie Jones	Career Development, Livestock Education, And Beef Industry Resources For Alabama Youth Through The Beef Checkoff Program	"Alabama's youth are learning about beef products and cattle at events across the state, thanks to the Alabama Beef Checkoff Program. Through field days, Beef 101 sessions, career-based contests, and livestock education resources, the Alabama Beef Checkoff Program works to support educators in preparing tomorrow's leaders of the agriculture industry. Learn how these assets can be utilized in your classroom."
Thursday, July 25	2:00pm - 2:45pm	Madelene Loftin	Roots Of Innovation: Agri-Biotech Stories To Inspire	Let's talk about Short Corn, Future-proofing Wheat, More Nutritious Tomatoes, and Bonus Bulls! HudsonAlpha's annual Guidebook provides Ag teachers with updates about new discoveries and applications of biotechnology in agriculture. Here are some of our favorite stories from the last few years.
Thursday, July 25	3:00pm - 3:45pm	Ashley Holmes	CDE Contest Booklets And Test Bank Updates	During this workshop teachers who are passionate about the following events: Forestry, Land Evaluation, Horse Evaluation, Meats and Quiz Bowl will have the opportunity to work together in groups to make suggested changes and updates to contest booklets and test banks.
Thursday, July 25	3:00pm - 3:45pm	Collin Adcock	CDE Contest Booklets And Test Bank Updates	During this workshop teachers who are passionate about the following events: Ag Construction, Ag Mechanics, Floriculture, Nursery Landscaping and Poultry will have the opportunity to work together in groups to make suggested changes and updates to contest booklets and test banks.
Thursday, July 25	3:00pm - 3:45pm	Rebecca Balkcom	CDE Contest Booklets And Test Bank Updates	During this workshop teachers who are passionate about the following events: Vet Science, Aquaculture, Ag Education, Agriscience Fair and Small Engines will have the opportunity to work together in groups to make suggested changes and updates to contest booklets and test banks.

## Architecture & Construction Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Thursday, July 25	8:00am - 9:30am	Hayes Vincent & Allison Ogles	CICT Grant Writing	Construction CTE teachers that attend this workshop will receive general information on the programs, updates on any changes for FY25, and one-on-one assistance for completing a grant application.
Thursday, July 25	9:45am - 10:30am	Jason Phelps	Go Build Updates	In this session attendees will receive a full update on Go Build Alabama, and learn how to use Go Build resources to recruit students and help them find employment after graduation. A special emphasis will be placed on how teachers and students can use the new Go Build Alabama Job Board and Job Fairs.
Thursday, July 25	10:45am - 11:30am	Jason Phelps	Alabama SkillsUSA Sponsor	In this session attendees will have an opportunity to meet organizations that support Alabama SkillUSA and learn more about these companies, programs, and groups and how they can connect with them and if they offer any additional resources for teachers and their classroom.
Thursday, July 25	1:00pm - 1:45pm	Tom McNeal	Alabama Power	
Thursday, July 25	2:00pm - 2:45pm	Cathy Tyler	NCCER's Subscription Management Support	We will walk through our recent updates to subscription policies and processes, and highlight how to efficiently use our new Subscription Management tool.
Thursday, July 25	3:00pm - 3:45pm	Cathy Tyler	NCCER and If I Had a Hammer, Inc.	NCCER and If I Had A Hammer, Inc. have partnered to expand access to the HammerMath® and HammerBuild® programs aimed to increase math comprehension through engaging applied math education, exercises and projects.

## Arts, AV, Communications Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Thursday, July 25	8:00am - 8:45am	Tom White	Skillfully Preparing For Production Contests	CTSO contest season is stressful for everyone. When it comes to video production contests, there are simple things you can do to relieve the stress on your students. Learn how to best prepare your students before they arrive, how to care for them just before the contest, and what to do when it's all over. Plan to take away techniques in script writing, technical direction, floor management, and overall communication to share with your students and a ton of tips for you as the teacher. Ultimately, there is only one winner on stage but every student that competes can feel like a winner if they are prepared and supported.
Thursday, July 25	9:00am - 11:00am	Mark Hendren	Simplifying Your Premiere Pro Workflow	This seminar will give you tips and tricks to speed up and simplify your Premiere Pro workflow. These are shortcuts and workarounds I've found to be extremely helpful in 13 years of working in Premiere in both news and creative services environments.
Thursday, July 25	1:00pm - 1:45pm	Janette Sayer	Adobe Creative Suite Credentialing For Students And Instructors	Participants will learn about the portfolio of certification exams, learning material, and practice tests offered through Certiport. Certiport works directly with Microsoft, Adobe, Autodesk, and others to offer industry-recognized certifications. These certifications are endorsed by and developed in collaboration with the represented companies. All certifications issued by Certiport hold the official company logo and the signature of CEO of the respective company to ensure legitimacy. Participants will also learn about updates to current products and new products that are on the horizon.
Thursday, July 25	2:00pm - 2:45pm	Tom White	The Science Of Video Production	Video production is an artform based in science. From signal flow to light control, the technical side of video production is science. In this presentation, you will take away the tools needed to break down the scientific traits of video production in order for your students to understand the science as well as the art of video production.
Thursday, July 25	3:00pm - 3:45pm	Amy Murphy	Connecting The Act Science Test To Career Technical Education	In this session, participants will: 1) discuss the importance of the ACT Science Test and review recent data; 2) investigate the structure of the ACT Science Test and complete a practice passage, and 3) connect the ACT Science Reporting Category Skills to the CTE classroom.

## CTE Administrators Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	8:00am - 9:00am	Dawn Morrison Niketa Dean	NEW CTE Administrators	This session is intended for newly appointed CTE Administrators during the 2024-2025 academic year and required of administrators appointed within the first 18 months of the added job responsibility. This session will mark the beginning of the New Administrator Academy (NAA) cohort for 2024-2025, and participant completion of a series of prescribed activities will earn one Professional Learning Unit (PLU).
Wednesday, July 24	9:00am - 10:00am	Sean Stevens	C & I Updates	This workshop is designed to provide updates from the Instructional Services section of the Alabama Department of Education. This session will equip Career and Technical Education (CTE) leaders with the knowledge and skills to enhance CTE programs within their assigned districts. Specifically, the focus will be on the intersection of curriculum and instruction, with an understanding of the implications of the Perkins V legislation.
Wednesday, July 24	10:00am - 11:00am	Kendall Tankerstey	PowerSchool Learning Lab	Come meet with a PowerSchool expert to trouble shoot issues and get your questions answered in the learning lab.
Thursday, July 25	7:30am - 8:00am	Sponsored Breakfast	Sponsored Breakfast	Breakfast sponsored by Certiport.
Thursday, July 25	8:00am - 8:30am	Mike Maddock	Alabama's Certification Progress Report	This session will provide information on the long-standing history of Certiport's commitment to Alabama's certification success! From Microsoft Office Certifications to Adobe, Information Technology Specialist and Entrepreneurship, Certiport is leading the charge for student academic and potential employment success.
Thursday, July 25	8:30am - 9:30am	Milea Hanner	Using Aptitudes vs. Interest to Grow CTE Programs	We'll explore the basics of aptitudes, how they differ from skills and interests, and their impact on CTE program alignment. Learn how to empower students to find their best fit pathway earlier in life while growing your local talent pipeline and meeting industry needs.
Thursday, July 25	10:00am - 11:30am	LaDonna Rudolph Sally Meek	Addressing Alabama's Foster, Homeless and Migrant Population	Attendees will learn about the McKinney -Vento Act and will receive strategies that will lead to partnership, access and and success with Career and Technical Education (CTE).
Thursday, July 25	1:00pm - 2:15pm	Mark Quintana Jeff Wooten	CLNA and TAPE in Cognia for the 2024-2024 Academic Year	This session will provide participants with current information on the CLNA, eGAP for Perkins, and EQIP updates to include TAPE. Each of these components play an integral part in our state's Perkins accountability requirements. Participants should attend this session to be current of the expectations as subgrantees.
Thursday, July 25	2:15pm - 3:15pm	Kelly Stanton	Navigating Career and Technical Education Certification	This session will guide you through the available Career and Technical routes to obtain educator certification. It will provide details about certification pathways that allow individuals with industry experience to transition into the fulfilling field of education. Additionally, this training will help those with career and technical certifications explore options leading to increased pay.
Thursday, July 25	3:15pm - 4:30pm	Dawn Morrison	Perkins V Updates and Accountability Briefing	How well is Alabama doing? Under Perkins V, states are required to report annually on the core indicators of performance. The annual requirement by states is a submission of a consolidated report to the USDOE titled the Consolidated Annual Report (CAR). This consolidated report requires student data to be submitted as disaggregated and must include performance metrics sorted by gender, race/ethnicity, special population categories, and career clusters. Attend this session to learn how specific Local Education Agencies (LEAs) are doing based on structured activities utilizing ALSDE-sponsored data dashboards. Participants should bring a laptop computer to follow along for guided practice exercises.
Friday, July 26	8:00am - 9:00am	Maggie Hicks	Alabama's Accountability System	This session will discuss assessments based on federal legislation for Every Student Succeeds Act (ESSA) and how it relates to the Perkins V Core Indicators of Performance. Participants will learn about Alabama's plan for state and federal requirements for Academic Achievement in math, reading, and science for high school students.
Friday, July 26	9:00am - 10:15am	Josh Swindall	Artificial Intelligence (AI)	Participants will be introduced to artificial intelligence and discuss strategies for educators to provide active guidance around permissible parameters for AI integration, and advocates for providing students education and exposure to AI concepts and tools. By engaging all voices concerning appropriate and ethical applications, schools can work to harness AI in a manner that meaningfully augments the human teaching and learning process rather than replaces its intrinsic interpersonal value.

## Business Marketing Education Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	TBD	Shelli Ballard-Thomas	Business Education Section Updates	--
Wednesday, July 24	TBD	Teresa Billingsley	Marketing Education Section Updates	--

Thursday, July 25	10:00am - 10:45am	Scott Mains	Introduction to Coding: a Starting Point for Your Student's Coding Journey	Are you seeking innovative ways to introduce the captivating world of coding to your students? Learning Blade's INTRO TO CODING resource is tailored specifically for late middle and early high school students. It offers a user-friendly approach to introducing block code and transitioning to text-based coding concepts while preparing students for future careers in STEM fields. INTRO TO CODING is designed to provide students with a comprehensive understanding of coding principles and practices. With over 20 hours of both online and offline learning, supplemented by robust teacher lesson plans, this resource ensures that students receive a well-rounded education in coding. The curriculum covers essential topics such as technology knowledge, computing systems, the evolution of computing, problem-solving strategies, programming fundamentals, and preparing students for digital citizenship. Additionally, Learning Blade offers access to over 400 online, standards-aligned lessons that not only teach coding but also provide insights into high-demand STEM careers, preparing your students for the future workforce. Together, let's empower your students to actively shape a future in STEM. Sign up in advance to receive your FULLY FUNDED account at <a href="http://www.LearningBlade.com/AL">www.LearningBlade.com/AL</a>
Thursday, July 25	10:00am - 10:45am	Janette Sayer	Adobe Overview	Participants will learn about the Adobe portfolio of certification exams, learning material, and practice tests offered through Certipoint.
Thursday, July 25	10:00am - 10:45am	Tammy Cyrus	Elevate Your Lessons With Ready-Made Lesson Modules and Additional Resources	MBA Research's Learning Activity Packages (LAPs) are ready-made lesson modules that help make teaching easier. These cutting-edge instructional tools and supplemental resources are designed to save teachers time, engage students, and drive measurable learning outcomes. Join us to learn about the components of LAPs and additional resources available to keep students engaged. With FREE access to these resources, you can add to your teacher toolkit and start using them immediately.
Thursday, July 25	10:00am - 10:45am	Susan Harryman	In It to Win It: Preparing Your Students for Competition	Getting students ready to compete can be exhausting! In this session, we will discuss creating a plan to ensure students are prepared for what happens in competition. From choosing events to setting checkpoints to rehearsals to raising money, you'll leave this session with a plan for preparing your students for success!
Thursday, July 25	10:45am - 11:30am	Jason Van Nus	A Reverse Career Fair: An overhaul to student/stakeholder engagement	This presentation, delivered by Georgia's 2023 ACTE Teacher of the Year and YouScience's Innovative Educator of the Year, will discuss a renovation to the typical 'Career Fair' design. This re-composition, called a 'Reverse Career Fair,' is designed to guarantee student-employer engagement. Within this design, students will naturally have to self-advocate, promote their skills, and interact meaningfully with employers and industry representatives. While leveraged in a Georgia Work-Based Learning Program, the 'Reverse Career Fair' is a natural and dynamic capstone for any CTE Pathway or work experience.  Documents and resources will only be made available to verified session attendees--so make this session a priority!

Documents and resources will only be made available to verified session attendees--so make this session a priority!

## Government & Public Administration Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	4:00pm - 5:00pm	LTC Chevelle Thomas, U.S. Army (Ret)	Meeting	ALACTE JROTC Section Meeting
Thursday, July 25	8:00am - 11:00am	Ryan Underwood & Colleen Boeder with TEAMTRI	5 Voices Accelerator	Experience the power of the 5 Leadership Voices in this accelerator series. Unlock the power of your voice and better understand how to connect and lead others. Learn the leadership language and skillset to help you work with cadets, administrators, peers, parents, and unlock the potential of teams and accelerate their performance. This accelerator will include four modules: Discover Your Leadership Voice, The Power of Your Voice, The Art of Collaboration, and Optimizing Team Performance.
Thursday, July 25	12:00pm - 4:00pm	Kenneth Mason with SREB & Dr. Gavin Moy with Boaz City Schools	SREB PBL Powerful Practices Session	When implemented effectively, project-based learning (PBL) is a powerful tool for creating engaging learning environments where students master curricular standards while also developing needed success skills for life beyond school. Quality PBL experiences can engage students in authentic problem solving and enable students to connect their learning to future careers. This session will explore SREB's Powerful PBL Practices and participants will apply this knowledge to either redesign a project from their curriculum or develop a new idea for a PBL unit of study that connects standards to authentic problems.
Thursday, July 25	4:00pm - 4:15pm	Sissy Louise Moore with Alabama Dept. of Veterans Affairs	OPERATION: We Remember	This presentation will provide the background and activities to recognize September as "Suicide Awareness Month."
Friday, July 26	8:00am - 8:45am	David Young with Drone Launch Academy	Elevate Education: Launching a Future-Ready Drone Program	As technology reshapes future careers and industries, this is your go-to session if you're looking to get your students started in the exciting world of commercial drone operations. With the drone sector set to boom, there are tons of opportunities waiting for students with the proper skills and credentials. This presentation will guide attendees through Career Pathways, FAA Regulations, Student Engagement, Equipment Essentials, Curriculum Integration, and ease of implementation. This isn't just about flying drones for fun; it's about setting up a solid program that prepares Alabama's students for a future where drones are everywhere in the working world.
Friday, July 26	845am - 9:15am	Larry Schultz	NOCTI JROTC Credential - Leadership and Employability Skills	This presentation focuses on how to prepare cadets for the NOCTI JROTC Credential "Leadership and Employability Skills" exam. Attendees will learn the exam composition; how to get and use the instructor guide; ordering and preparing for the practice exam; administration guidelines for the Leadership and Employability Skills exam; and related costs to implement.
Friday, July 26	9:15am - 10:00am	Larry Schultz	JROTC Instructor Survey Results Review	The results of the JROTC Instructor Survey will be shared with conference attendees.

## Guidance & Counseling Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	9:00am - 11:00am	Jill Prince, Mark McGhee, Sean Stevens	New Counselor & Career Coach Session	This session is for new (in position 2 years or less) counselors and career coaches. Content will include career development yearly planning, collaboration between counselors and career coaches, and more.
Thursday, July 25	7:30am - 8:00am	--	Sign in and Welcome	Sign in, pickup materials, and get ready for a great day of learning!
Thursday, July 25	8:00am - 9:00am	Elizabeth Nelson	Guidance & Counseling Opening Session	In this session, industry partners will discuss the crucial role that counselors and career coaches play in connecting education and industry.
Thursday, July 25	9:15am - 10:15am	Julie Komegay	Alabama Talent Triad Implementation Guidance	In this session, counselors and career coaches will receive an overview of the Alabama Talent Triad and be provided guidance for its implementation.
Thursday, July 25	10:30am - 11:30am	Christina Puckett & Candy Blackmon	Elementary Grades Career Activities	In this session, counselors and career coaches will explore engaging and developmentally appropriate activities designed to spark curiosity and foster career awareness in elementary-aged students.
Thursday, July 25	1:15pm - 2:15pm	Jerome McQueen	Middle Grades Career Activities	In this session, counselors and career coaches will delve into effective strategies and activities tailored to middle school students, equipping counselors and career coaches with tools to foster career exploration and planning.
Thursday, July 25	2:45pm - 3:45pm	Taylor Simmons	Marketing CTE Programs	In this session, counselors and career coaches will learn practical strategies and best practices for effectively marketing CTE programs to diverse stakeholders, ultimately increasing participation and support.
Thursday, July 25	3:34pm - 4:00pm	Mark McGhee & Jill Prince	Closeout / Announcements	--
Friday, July 26	8:30am - 10:00am	Sean Stevens, Mark McGhee, & Jill Prince	Guidance & Counseling and Career Coach Closing Session	Join us as we close out the guidance & counseling and Career Coach portion of the 2024 CTE Summer Professional Development Conference with the latest updates from the Alabama State Department of Education.

## Health Science Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	8:00am - 4:30pm	Duane Whatley	BLS Instructor Certification (Pre-registration Required)	The American Heart Association CPR Instructor Course will allow the participant to teach all American Heart BLS level certifications as well as the Heartsaver CPR/AED, First Aid, Bloodborne Pathogens, Pediatric First Aid CPR AED, and Friends & Family CPR.
Wednesday, July 24	4:00pm - 4:45pm	Wendy Davenport RN, MSN; Elizabeth Brumley RN; Tabitha Gary, RN, BSN	ALACTE Health Science Buisness Meeting	The purpose of this meeting will be to conduct the business of the Health Science section and for open discussion of issues pertaining to the Health Science cluster area.
Thursday, July 25	7:15am - 8:00am	Alabama HOSA	Grab and Go Breakfast	This breakfast is sponsored by Alabama HOSA.
Thursday, July 25	8:00am - 8:50am	Dana Stringer	Anchor Assignments in the World of Health Science	A hands on workshop designed to integrate core content into existing projects/assignments/lessons. Digital resources will be referenced. Attendees should bring samples of their current anchor assignments, classroom projects, or project ideas along with the technology necessary to access the resources provided.
Thursday, July 25	9:00am - 9:50am	Matt Heaton	Skills for Success - An Authentic CRI	An in depth overview of new CRIs offered through the ACCS Innovation Center, a division of the Alabama Community College System. These Skills for Success courses for Community Health Worker and Mental Health Worker offer rapid, no cost, industry-recognized credentials.
Thursday, July 25	10:00am - 10:50am	Becky Cornelius, RN, MSN	2024 HOSA Update	In this session, advisors will receive the latest updates from state and national associations to incorporate into classroom instruction, service and state projects, and activities to give greater scope to the total instructional program.
Thursday, July 25	12:30pm - 1:20pm	Lisa McGrady, RN	2024 Health Science Update	Updates provided in the areas of curriculum, certifications, credentialing, compliance reviews, equipment, and other items pertinent to the Health Science program area.
Thursday, July 25	1:30pm - 2:20pm	Peggy Benson, RN, MSN, MSHA, NE-BC	Healthcare Workforce Opportunities	This presentation offers an overview of the Alabama Board of Nursing's ongoing effort to bolster the state's healthcare workforce, which includes a number of opportuniites relevant to secondary students and faculty.
Thursday, July 25	2:30pm - 3:20pm	Eliza Dudley RN, DNP; Andrea Fyffe BS, MS; Tabitha Gary RN, BSN; Terrica McMillan MAE, BS, RT, NBCT; Lee Roberson RN, MSN; Staci Stick RRT; Kathryn Teare APN, MSN	Health Science Course of Study Overview Panel Presentation	The 2023 Alabama Course of Study: Career and Technical Education, Health Science provides the framework for grades 6-12 Health Science programs in Alabama's public schools. These content standards are fundamental and specific, designed to prepare students for the career and technical demands of the future, both in the workplace and in postsecondary education settings. Our seven member panel will discuss their role in the process and the courses they helped write or revise. There will be a time for Q&A.
Thursday, July 25	3:30pm - 4:20pm	Katie Busch	Strategies for Preparing Students for the ACT Science Section	In this session, teachers will learn how to help students prepare for the ACT science section from a veteran ACT teacher. We will focus on how to build student confidence by decoding the test question types and strategies for each type. Although some of this section is content based, most of the score comes from the ability to apply ACT test-taking strategies and decode charts/tables/figures. We will provide time for open Q&A for any specific questions.
Friday, July 26	7:15am - 8:00am	Alabama HOSA	Grab and Go Breakfast	This breakfast is sponsored by Alabama HOSA.
Friday, July 26	8:00am - 8:50am	James R. Hanley, M.D.	Basic Wound Assessment and Closure Techniques for Athletic Trainers (Pre-registration Required)	Appropriate wounds for closure vs. referral to Emergency Room. Simple interrupted suture closure and possible staple closure.
Friday, July 26	8:00am - 8:50am	Scott Mains	Bridging the Gap: Ready for Industry - Preparing Students for the Workforce	As educators, we are constantly seeking ways to equip our students with the skills and knowledge they need to succeed in the ever-evolving workplace. Ready for Industry offers fully funded access to interactive lessons designed to bridge the gap between standard education and the demands of high-demand industries. Join us as we explore this invaluable resource and discover how it is revolutionizing student workforce preparedness.
Friday, July 26	8:00am - 8:50am	Barbara K. Ratliff, BSN, MBA; Kendra Truss	Introduction to Simulation	In this session, we will review and practice the process of developing and carrying out a simulation, from objectives to debrief.
Friday, July 26	8:00am - 8:50am	Tony May	Alabama Certified Employee (ACE) and Mobilizing Alabama Pathways (MAPS) for Health Science	This session will offer an overview of the newly added Alabama Certified Employee (ACE) CRI. ACE is a training course that provides students with relevant, cutting edge, and industry-driven employability skills training to better prepare students for the workforce.
Friday, July 26	9:00am - 9:50am	James R. Hanley, M.D	Basic Wound Assessment and Closure Techniques for Athletic Trainers (Pre-registration Required)	Appropriate wounds for closure vs. referral to Emergency Room. Simple interrupted suture closure and possible staple closure.
Friday, July 26	9:00am - 9:50am	Barbara K. Ratliff, BSN, MBA; Kendra Truss	Introduction to Simulation	In this session, we will review and practice the process of developing and carrying out a simulation, from objectives to debrief.

Friday, July 26	9:00am - 9:50am	Anthony Caldwell, NRP, MS	Health Science Dual Enrollment Opportunities in Alabama	This sessions will offer an overview of the different Health Science dual enrollment (DE) offerings that are available through the Alabama Community College system. Mr. Caldwell will answer questions and offer assistance to teachers who would like to pursue DE opportuniiteis for their students.

## Information Technology Agenda

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Thursday, July 25	8:00am - 8:45am	Elizabeth Moore	College & Career Readiness Strategies for Student Success	In today's rapidly evolving workforce, it's imperative for Career and Technical Education (CTE) programs to equip students with the skills and knowledge necessary for success in both college and career pathways. This presentation aims to provide educators with practical strategies for integrating robust college and career readiness initiatives into their classroom, utilizing the Alabama Career Planning System, leveraging new administrative tools, along with work-based learning best practices and tools. Plus, gain a sneak peek of an enhanced student user experience to maximize engagement!
Thursday, July 25	9:00am - 9:45am	Janette Sayer	Certipoint Overview and What's New	Participants will learn about the portfolio of certification exams, learning material, and practice tests offered through Certipoint. Certipoint works directly with Microsoft, Adobe, Autodesk, and others to offer industry-recognized certifications. These certifications are endorsed by and developed in collaboration with the represented companies. All certifications issued by Certipoint hold the official company logo and the signature of CEO of the respective company to ensure legitimacy. Participants will also learn about updates to current products and new products that are on the horizon.
Thursday, July 25	10:00am - 10:45am	Marijean Ballard & Steve Blair	How can ACCESS Support Your CTE Program?	ACCESS will share with you ways we can help support your CTE programs by showcasing the CTE courses we currently offer, new courses for Fall '24, possible pathways, and our future plans to design other CTE courses. We will also explain how to get our course content for free for CTE teachers to use in their classrooms.
Thursday, July 25	1:00pm - 2:30pm	Steve Stone	Open-Source: How the Robot Operating System (ROS) is Changing Industrial Robotics	Have you heard of ROS? ROS, the Robot Operating System, is to Robotics what Windows was to the PC. Developed at Stanford University, ROS is fast becoming the operating system standard for robotics due to programming control flexibility, support, and cost efficiencies. Companies and organizations like Amazon, SpaceX, the GigaFactory, Google, DARPA, and NASA use ROS for open-source robotics. In this presentation, we'll look at where industry is trending and how these efficiencies are trending to bring affordable industrial robotics to the classroom.
Thursday, July 25	2:45pm - 3:30pm	Angela Clark	AI Exploration for Educators	Discover the power of educator-friendly, generative AI based resources that can be useful for instructional activities, planning, content knowledge, and supplemental materials. Take a guided tour of these select tools to see which ones may boost your productivity and learn to create the perfect prompt for the best results. Included on the tour will be Curipod, ChatGPT, SchoolAI, Canva, Diffit, and Wolfram among others.

**Law, Public Safety, Corrections, & Security Agenda**

DATE	TIME	PRESENTER	TITLE	DESCRIPTION
Wednesday, July 24	4:00pm - 5:00pm	--	Tech Ed Business Meeting	--
Thursday, July 25	8:00am - 11:00am	Tim Hart, LAPSEN	Police Academy in Your Classroom	Bring the excitement of the police ACADEMY to your classroom. This 8-hour hands on training will prepare teachers to do labs with their students in the Law and Public safety classroom. Lab planning, establishing lab rules for safety will be covered. Instructors will learn how to conduct labs in handcuffing, Subject control holds, basic traffic stops, basic defensive tactics, finger printing and more. All labs listed will be demonstrated for easy classroom implementation.
